

Navigating the Legal Landscape of AI

**Steve Cosentino, CIPP
Partner
Stinson LLP**

Steve lives and breathes technology, utilizing his experience in intellectual property and corporate finance to help companies navigate the cyber landscape

CONTENT TO BE ADDRESSED

- General legal issues to consider in the use of AI
- AI legal issues specific to the financial services industry
- Drafting an internal AI policy including guidance for general employees, marketing employees and developers
- Key issues to look for when reviewing vendor agreements that include AI tools or components
- Overview of AI under the new Presidential administration

ARTIFICIAL INTELLIGENCE GUIDANCE AND POLICIES

Stinson LLP's Artificial Intelligence (AI) practice group guides clients through the intricate legal landscape surrounding AI by bringing together attorneys across numerous practice areas. As the integration of AI continues to reshape entire industries, understanding how to safely manage AI technologies and applications is paramount for businesses. By staying abreast of the latest legal developments and technological advancements, we ensure that clients remain at the forefront of innovation while mitigating legal risks associated with AI use.

Strategically positioned at the intersection of technology, finance and law, Steve negotiates technology transactions in the software, mobile, health care and FinTech industries. His primary focus is on technology related transactions and compliance.
